

## **SCIENCE CLASSROOM NEWS FOR THE WEEK OF DEC. 17**

Hello Holy Family School,

It has been an exciting time for me learning the new faces at Holy Family.

Let me introduce myself, my name is Kelly Ackerson, I am a lifelong resident of Boyd County. I am a graduate of Marshall University and Morehead State University. I taught my entire career in the Boyd County Public Schools. I spent the last twenty years of my teaching career as a science teacher. I retired in 2012, probably too early. I am glad to be back working with young men and women who are anxious to learn.

These two weeks before Christmas are special as schedules and routines can be changed for rehearsals and practices and although I have been a schoolteacher for many years...some things are different and I am learning along with the students.

We have been doing science labs and science activities every day this past week and will continue this week, no homework has been assigned, but we will begin in our textbooks when we return from Christmas Break and it will be back to business as usual.

My door is always open and you may contact me at [kackerson@cdlex.org](mailto:kackerson@cdlex.org) if you ever have any questions or concerns.

There will be more information to come about the Science Fair at ACTC, January 25th, 2019. We will be sending representatives, three from middle school and three from the high school.

Sincerely,

*Kelly Ackerson*
